

## Mini Mash Home Learning Tasks wb 18.5.20

Go to the 'Pin' symbol (top right hand corner) & click on it. You will then find a section called 'All about me'. Can you complete some puzzles? In the 6 piece jigsaws, see how many you can complete. There is a lovely 'My Family' photo puzzle there, can you complete it?

Go to the 'Pin' symbol again (top right hand corner) & click on it and find the section called 'All about me' again. Go to the paint projects, there is a template called 'Me.' Finish this by drawing your own face. (You could look in a mirror to help you remember eye and hair colour.) Click on the writing at the bottom and write your name on your picture. Then click on the purple tab (top left) and press the save button to save it in your tray so that we can see your lovely picture.

Click on the building blocks picture inside the classroom, the green box is Number Paint project. See if you can click on each number from 1 to 5, choose your colour and draw it. We would love you to save one of each number in your tray so that we can see them. (purple tab, top left to save) If you find this easy, move on to numbers 6 to 10!

Go to 'Maths City', it is the yellow picture on the wall. In there you can find out about some different jobs. Click on the car to hear the mechanic talk about his job, and click on the Recycling bank picture and the café picture to see videos on these jobs. There are lots of activities to choose from after watching the videos if you would like to.
